

Caught In The Headlights
© 2005 Matthieu Brandt

I was going about my life
In a state of denial
Seeing my dreams pass by
Thinking it all worthwhile

Burned the candle at both ends
Face the music, had my chance
Nothing more to do than say goodbye

Caught in the Headlights
A frightened deer that can't break free
Never make it to daylight
I'll be roadkill on this dead end street

Lost in a dogfight
Running with tail between my legs
Poisoned by a snake bite
Where do I go from here

She had a way with words
Held me in hope and fright
All the lies I heard
Led to a downhill slide

I won't be the last you'll love
And I won't be the last you'll leave
Ignorance has brought me to my knees

Caught in the Headlights
A frightened deer that can't break free
Never make it to daylight
I'm roadkill on this dead end street

Lost in a dogfight
Running with tail between my legs
Poisoned by snake bite
Where do I go from here

Each man's hell's in a different place
Mine's behind my ruined face
The memories of love gone sour
Haunt me in my darkest hours

Caught in the Headlights
A frightened deer that can't break free
Never make it to daylight
I'm roadkill on this dead end street

Lost in a dogfight
Running with tail between my legs
Poisoned by a snakebite
Where do I go from here
